Coimbatore,Tamilnadu,India

I'm an Artificial Intelligence and Data Science student with skills in Python, SQL, Power BI, Tableau, TensorFlow, Keras, Machine Learning Algorithms, Data Preprocessing, and Data Engineering. I am currently learning Neural Networks and Deep Learning, and I am interested in applying AI and data accuracy-focused analytics to support business metric reporting for business growth through practical projects. I am also eager to learn new technologies and continuously improve my technical skills with clarity and consistent execution.

EDUCATION

B.Tech - Artificial Intelligence and Data science.

Nov2022 - May 2026

Tamilnadu College of Engineering ,Coimbatore.

CGPA - (7.4/10)

PROJECTS

E-Commerce Business Intelligence Platform:

- Developed **Power BI dashboards** to track sales, revenue, and customer performance, improving reporting system visibility of key business metrics.Cleaned and transformed data using **SQL** and **Power Query**, ensuring data accuracy through validation of invoice and order-level records.**Built KPI reports** and visualizations to identify trends and support forecasting aligned with pricing model and revenue drivers.Automated recurring reporting processes and standardized order/customer tracking system, enabling faster business analysis with improved efficiency.

HR Analytics & Attrition Prediction:

- Developed a **Machine Learning model** to predict employee attrition and identify key retention drivers, supporting business growth decisions.Analyzed workforce data and collaborated with HR teams as a cross functional team to align insights with retention and growth objectives.Performed **data preprocessing**, **feature engineering**, and **model evaluation** using programming language **Python** to ensure reliable predictions with consistent results.**Created HR dashboards** to visualize employee performance and attrition trends for stakeholder writing and narrative-based reporting.

Banking Risk & Loan Default Analytics:

- Developed a **predictive analytics** solution using **Python** and **SQL** to assess loan default risk and improve risk monitoring through a structured system of automated evaluation.Analyzed customer and loan datasets to support automated risk assessment workflows with automation and improved efficiency.Applied **Machine Learning techniques** to classify high-risk applicants and support risk forecasting with clarity in model outputs.Built **Power BI dashboards** for risk monitoring and decision support, strengthening the reporting system for stakeholders.

Inventory Management Analytics:

- Designed an inventory reporting workflow by consolidating stock data into structured **Google Sheets** for centralized tracking.Built interactive **Tableau dashboards** to monitor inventory levels, stock movement, and low-stock alerts.Implemented data validation and automated refresh processes to improve reporting accuracy.Developed KPI dashboards for reorder planning and inventory aging analysis.
-

SKILLS

- Programming : Python, SQL
 - Data Analysis & Visualization : Excel, Power BI, Pandas, NumPy,Matplotlib, Tableau
 - Data Processing : Data Preprocessing, Feature Engineering
 - Data Engineering : Data Cleaning, Basic Data Pipeline Development
 - Machine Learning : Machine Learning Algorithms, Scikit-learn
 - Deep Learning : Fundamentals(TensorFlow, Keras, Neural Networks,Natural Language Processing)
 - Tools : Jupyter Notebook, Git,Github,Visualcode, Spyder,Google Colab,My Sql
-

CERTIFICATES

- | | |
|--|---|
| • Python for data science(cognitive ai) | • Tata – GenAI Powered Data Analytics Job Simulation (Forage) |
| • SQL Essential Training(Linkedin Learning) | • Deloitte – Data Analytics Job Simulation (Forage) |
| • Essentials of Data Visualization using MS Excel(uniathena) | |
| • British Airways – Data Science Job Simulation (Forage) | |
-

ACHIEVEMENTS

- Journal: Published a paper titled "A Cognitive Aware AI Framework for Personalized Learning Support" in the International Journal of Innovative Research in Technology (IJIRT)
-

LANGAUGES

- Tamil, English.
